Karen just finished the school year and is ready to plan her vacation with her family.

Unfortunately, Karen waited until the last minute to plan and has no clue where her family should go!

Luckily, Karen's friend told her about a great new app that can help look at vacation spots and plan trips.

With the new app, Karen was able to follow some of her friends and look at their vacation pictures.

After looking at her friends' pictures there, Karen fell in love with going to Aruba. She thought the landscape was so beautiful and that she had to see it in person.

Karen and her family have now planned their trip to Aruba and are excited to go!
